Programming Assignment #3

Manual

Pranitha Nagavelli(A20345406)

Manual

- Create a Instance send the Jar file into it and file to be executed

Client.jar

Java -java final.jar client <threads> <workload file> <lw/rw/animoto> <#of workers>

For Remote:

Java -java final.jar client <threads> <workload file> rw <#of workers>

For Local:

Java -java final.jar client <threads> <workload file> lw <#of workers>

Remote Worker

Java -java final.jar remoteWorker <threads>

Animoto

Java -java final.jar animoto <threads>

Command to run remote workers in different instances/worker:

pssh -h hosts.txt -x "-oStrictHostKeyChecking=no -i a3.pem" "java -jar /home/ec2-user/Remote 4"
